Village of Skokie

2016 Alley Light Program Application

Dear Skokie Resident or Business Owner,

The Village of Skokie provides a comprehensive and effective street lighting program for all Village-owned residential, arterial, and collector streets within the Village boundaries. Often, though, residents and business owners are interested in additional lighting in the alley areas behind their property.

To provide an option for alley lighting, the Village manages a cooperative Alley Lighting Program through which lights can be placed in alleys at a low cost to the property owner.

For an annual charge of \$95 paid directly to the Village, the Village of Skokie will arrange to install, maintain, and provide electricity for a street lamp in the alley behind a resident's home or business establishment. Groups of property owners can get together to request a light, and the Village is able to divide the cost on the water bills of all property owners involved.

Once the Village is contacted requesting the placement of an alley light, Commonwealth Edison will survey the site to determine if a light can be placed on the existing power pole, and the Village's Engineering Division will then inform the applicant whether a light can be installed. All lights must be placed on existing poles or structures. After payment in advance of the first year's bill, the light will be installed and maintained indefinitely by the utility.

If the annual fee for the light is not paid in the future, the light may be turned off and eventually removed. If there are any questions, please call the Public Works Department at 847-933-8427.

To request the placement of an alley light near your residence or business establishment, please fill out this application and mail to the Village Traffic Engineer at 5127 Oakton Street, Skokie, IL 60077. Please indicate if you are requesting the light on behalf of a group of property owners. If so, once the light placement is approved, you will receive more information about billing options.

Name: _____

Address: _____

Are you requesting on behalf of a group of property owners? _____
