Village of Skokie

Alley Light Program Application

Dear Skokie Resident or Business Owner,

The Village of Skokie provides a comprehensive and effective street lighting program for all Village-owned residential, arterial, and collector streets within the Village boundaries. Often, though, residents and business owners are interested in additional lighting in the alley areas behind their property.

To provide an option for alley lighting, the Village manages a cooperative Alley Lighting Program through which lights can be placed in alleys at a low cost to the property owner.

For an annual charge of \$95 paid directly to the Village, the Village of Skokie will arrange to install, maintain, and provide electricity for a street lamp in the alley behind a resident's home or business establishment. Groups of property owners can get together to request an alley light and the Village is able to divide the cost of it for all property owners involved.

Once the Village is contacted requesting the placement of an alley light, Commonwealth Edison will survey the site to determine if a light can be placed on the existing power pole. All lights must be placed on existing poles or structures. Once your application is received by the Village of Skokie, an email/phone call will be sent to the resident or business owner who completed the form. The Village of Skokie will then send this information to ComEd and the Engineering Department will update the applicant once ComEd has scheduled the light to be installed.¹

If the annual fee for the light is not paid in the future, the light may be turned off and eventually removed. If there are any questions, please call the Engineering Department at 847-933-8231.

To request the placement of an alley light near your residence or business establishment, please fill out this application and mail to the Engineering Department at 5127 Oakton Street, Skokie, IL 60077.

Name: _____

Address: _____

Phone: _____ Email Address: _____

Are you requesting on behalf of a group of property owners? _____

Description of location for the alley light:

¹: There is a long waiting period from when ComEd receives the application to when the light is installed. We appreciate your patience with this process.

Complete this table for each resident or business owner will be splitting the \$95 annual fee. The annual fee will be split evenly among the residents or business owners listed below on their respective water bill annually.
