Date: _____

About the Property-Owner's Award Program

Each year the Village of Skokie Beautification & Improvement Commission evaluates nominated properties throughout the Village. Nominated properties are typically evaluated in late summer and winners receive notice in December or January. Winners receive an awards certificate during the annual ceremony held in March or April.

Please consider nominating a neighbor, a local business, or yourself!

Standards for Evaluating a Property for Nomination

1. Overall, Year Round Appearance

- a. Paving: Clean, free of cracks and weeds
- b. House and buildings: Good overall maintenance
- c. Garden: Exterior plantings enhance overall landscape

2. Garden Design

- a. Color: The color in the landscape should catch attention. The colors should harmonize with the surrounding structures. Flowering annuals, perennials, or various colors of foliage should be incorporated into the landscape.
- b. Layout: The design should flow well and provide continuity. There should be a natural transition in heights of plants (i.e. stair step effect).
- c. Originality: The design of the landscape should reflect an element of creativity and distinction.
- d. Balance: The plantings should relate to the scale and proportion of the surroundings. Repeating patterns and groupings of plants add continuity to the landscape.
- e. Texture: There should be a variety of plants including conifers or foliage plants that provide year round interest.
- f. Condition: The garden should be deadheaded, mulched, edged, and watered. Spent material should be removed. The landscape should have a vigorous, healthy, and well kept appearance.

3. Condition of Lawn and Ground Covers

- a. The lawn should be free of weeds and without bare spots. It should be healthy looking and a rich green in color.
- b. The lawn should be edged in areas adjacent to sidewalks and drives.

4. Trees and Shrubs

- a. The trees and shrubs should be in proportion and to scale of the property. They should be maintained, free of dead branches, and not overgrown.
- b. They should be disease free and in healthy condition.
- c. Landscaped beds should be mulched and edged.
- d. Note that parkway trees are the responsibility of the Village, but parkway maintenance is the responsibility of the property owner.
